MultiTech Connection Manager

Software Automation Tool for Management of Cellular Modem Connectivity

Version 2.1 Now Available for Download

Date: December 9, 2020

I. Summary

MultiTech Connection Manager is a software solution designed to greatly simplify and ease the installation, configuration and management of cellular connectivity in MultiTech USB and serial cellular modems.

Version 2.1 adds support for new USB and serial modems that have been recently developed and brought to market including:

- **SocketModem® Cell** - LTE CatM1/NB-IoT Global capable modems
 - MTSMC-MNG2 and MTSMC-MNG2-U
- **MultiConnect® microCell** - LTE Cat 6 USB modem for CBRS OnGo Networks
 - MTCM2-L6G2-B03-xx
